Executive Session – 5:30 p.m.

Mayor Childs called Town Council to order at 5:30 p.m. Monday, July 24, 2017 for the purpose of entering executive session pursuant to FOIA §30-4-70(a)(1) to discuss employment, appointment, compensation, promotion, demotion, discipline, or release of an employee; specifically, the position of deputy administrator starting in September 2017 instead of January 2018, and a salary adjustment for the town clerk. Mayor Childs, Mayor Pro Tempore Ott, and Councilmembers Courtney, Johnson, Pellegrino, Samples, and Stevens were in attendance. A quorum was present. Ms. Samples moved to enter executive session at 5:30 p.m. Mr. Johnson second. All voted in favor. MOTION CARRIED. Mr. Johnson moved to reconvene regular session at 6:06 p.m. Mr. Courtney second. All voted in favor. MOTION CARRIED. Mayor Childs said for the record that no action was taken during executive session. Any motions and/or directions to the town administrator will be made during the regular meeting that begins at 6:30 p.m. as noted on the agenda under Business Item 7. Mayor Childs declared the session adjourned at 6:07 p.m.

Town Council Meeting – 6:30 p.m.

1. CALL TO ORDER. Mayor Childs called the regular meeting to order at 6:30 p.m. Mayor Childs, Mayor Pro Tempore Ott, and Councilmembers Courtney, Johnson, Pellegrino, Samples, and Stevens were in attendance. A quorum was present. Others present: Administrator Fellner; Town Clerk Hermann; Finance Director King; Fire Chief Otte; Planning Building & Zoning Director Morris; Interim Police Chief Hofmann; Public Works Director Adair, and Events Supervisor Ellis.

2. INVOCATION AND PLEDGE OF ALLEGIANCE. A. Invocation: Pastor David Pohto, First Baptist Church Surfside, gave the invocation. B. Pledge of Allegiance: Mayor Childs led the Pledge.

3. AGENDA APPROVAL. Mr. Johnson moved to adopt the agenda as presented. Mr. Stevens second. All voted in favor. MOTION CARRIED.

4. MINUTES APPROVAL. Executive Session and Regular Meeting July 10, 2017. Mr. Johnson moved to adopt the July 10, 2017 executive session and regular meeting minutes as presented. Mr. Ott second. All voted in favor. MOTION CARRIED.

5. PUBLIC COMMENTS – Agenda Items Only. (3-minutes per speaker)

Ms. Sandra Elliot, 5th Avenue North: Good morning, everyone. I mean good afternoon; good evening, whatever it is. I wanted to make a comment on the website discussion that Mr. Stevens is bringing up, okay. It’s not negative. We have two sites. We have SurfsideBeach.org site, which is our homepage, and I have to agree with the minutes I was reading. It’s very difficult to navigate. If you find something on there, it’s a hard time to find it again. I think the visitors would give up. But on the .org site, we have a bar across the top; is there, there’s a drop box at the page and it has in town. If you click on in town, you’ll come to visitors’ information. When you do that, you’re gonna go right over to SurfsideBeach.com, which is South Strand Chamber’s homepage. Right smack in the middle is a 65 second advertisement about us that is also on YouTube, because they have a link to go to YouTube. They put this video on in 2015. It hadn’t had too many views. It’s a little grainy. I only say that because I know someone who’s in the business that tells me it is. My eyes don’t see it. Also on the YouTube in November 2007, the Chamber has a video, and it’s two minutes and 12 seconds long showing our whole town; I mean even the Veterans Memorial, all our parks. It had over 28,000 hits, and the best hit that we
had is our pier. It seems the fisherman love it there. They catch flounder. There was over 37,000 hits.

You do realize that if we got rid of the Chamber’s videos, we need to do one. A 60 second video at least
cost $5,000. So the Chamber site is far easier to navigate than ours. It doesn't have multiple levels to
confuse our guests or our residents, and it promotes our businesses in town. It has everything needed
without us duplicating items. Take a look; click away. Please review it before you make any decision, and
the rat, map that Ms. Magliette was looking for last week, last meeting, is on both sites, okay. Thank you.

Ms. Carol Cook, 7th Avenue South: I’d like to thank Councilman Stevens for adding Item 8.A. to
the agenda. Walk-in retail businesses do not belong residential zones. As I stated at the previous council
meeting, the R1 district ordinance intent is to provide quiet, livable, low density single-family housing
neighborhoods. It is impossible to fulfill the intent of the ordinance when a business is operated in a
residential area. Businesses in residential areas impact both the quality of life and the safety of the
residents and visitors. I am asking that tonight council eliminate Division 2, Use Regulations Section 17-
396.4 without granting a grandfathered status to current businesses in our residential neighborhoods. I’m
also requesting that the elimination of Section 17-396.4 be the starting point for the review of and the
elimination of all other ordinance that allow for home businesses that require the clients to travel into our
residential neighborhoods. We need our ordinances, many of which are outdated and no longer
applicable to today’s Surfside Beach, to be reviewed and either updated or eliminated. Please keep in
mind is this isn't just my problem. Every resident here, with the exception of those who live in Harbor
Lights, could awaken tomorrow to find a barber or beauty shop right next door to them. Thank you.

Ms. Sherry Wardle, 1st Avenue North: Yeah, I want to discuss item 8D, reducing the amount
staff can spend without Town Council approval. I don't know how much all the staff are able to spend;
what their limits are, but I do remember at past meetings that we had discussed that the administrator
had a $10,000 limit, and there was much discussion. I know that I came here several times wanting to
know about a check for $9,999. Do you honestly think that reducing the amount is gonna solve your
problem? If you don't trust your staff with the limits that they have now, reducing it is not gonna change
anything. Cause all you have is one check for $9,999 and then the check before it for $75, also payable
to Clemson. So you're being you're being, you're being duped. If you honestly think that this is going to
solve your problem, forget it. It's not. If you don't trust your administration with the spending limits that
they have now, do something about. Either deal with it or get rid of 'em.

6. COMMUNICATIONS

A. Employee Award. Fire Chief Kevin Otte, 5 years. Mayor Childs presented Chief Otte with
an awards check, service pen, and certificate acknowledging his service. Chief Otte received a standing
ovation.

B. Department Reports.

i. Events. Supervisor Ellis presented the written report, a copy of which is attached hereto. Mr.
Courtney said thank you to Ms. Ellis and staff for the good job done with the hula shows. I attended and
was surprised with the phenomenal turnout. I guess approximately 400 people. The beach was packed.
Great time. Thank you. Mayor Childs said Mr. Courtney is right. I think the count exceeded 400 people
one night. People were down to water’s edge. It really is a very good event.

ii. Finance. Director King presented the written report, a copy of which is attached hereto. Ms.
King explained that this a preliminary report. The town has 60 more days to book revenue and expenses
for 2016-2017. Ms. Samples asked if the town tracks businesses that close. Ms. King said not formally.
There is a difference between losing a business and having it continue under new ownership. Ms.
Samples did not believe they notified the town. Ms. King said there is no need to, because the town
doesn't provide any utilities to turn off. Staff could go through the Grand Strand Water Authority reports
to see who turned off water. Ms. Samples said thank you. Mr. Courtney said Ms. Samples and he had
similar thoughts. He asked if the five new businesses were establishments that are opening store fronts
on Highway 17. Ms. King said they could be home businesses. Mr. Courtney asked if staff could start
tracking businesses filling vacant stores on Highway 17. Ms. King said we can do that. Mr. Courtney said
thank you so much, and thank you for your report.

iii. Fire. Chief Otte presented the written report, a copy of which is attached hereto. Ms.
Samples said congratulations on your five years. You are a valuable asset to this town. We are grateful
and lucky to have you. Thank you for all of your hard work. Mr. Courtney said thank you very much for
your report. Congratulations on your five years. What is the volunteer recruitment status? Chief Otte said
a few people expressed interest. I have not seen any applications, yet, but the volunteer committee
reviews them first. The banner up was put up last week, and the information is on the Facebook page.
An individual who is moving here has already said he will volunteer. Mr. Courtney ask if any town staff
served as volunteers. Chief Otte said a member of public works responds; he serves as field support staff
by helping keep the scene safe by setting up cones, watching traffic, etc. Mr. Courtney asked Chief Otte
to keep Town Council informed on the volunteer recruitment. Chief Otte said he would give updates
monthly. Mr. Courtney asked how incidends on the beach were documented. Chief Otte said they have to
use the nearest physical address that 9-1-1 center has or that the engine company on scene sees. Mr.
Courtney was concerned because multiple calls being tied to a specific address might cause problems,
because the calls weren't actually there.) Chief Otte said that was a possibility. Mr. Courtney suggested
that Chief Otte you look into this and determine whether the latitude and longitude could be used, so
calls are not registered erroneously to a particular address. Chief Otte said he would contact the 9-1-1
director soon. Mr. Ott referred to the "assist police - bomb call" in the report and asked if there were five
bombs. Chief Ott said the department stands by for those calls. We've had several suspicious packages
over the course of time. Mr. Ott said thank you, and thank you very much for your service. Mayor Childs
said again, congratulations for your five years.

iv. Planning, Building & Zoning. Director Morris presented the written report, a copy of which
is attached hereto. Ms. Morris said she just learned today regarding the stormwater issues on 14th
Avenue staff is working with the engineers to find solutions. Council will be updated. The process for
obtaining yard sale permits is going very smoothly. Several people came into the office; called, and sent
email messages. The information is kept on a spreadsheet. Harbor Freight will open within the next few
days. Ms. Samples said great report. Thank you for the detail on the yard sale permits. How many yard
sale permits were issued? Ms. Morris said over two dozen. Ms. Samples asked if the stormwater problem
was on 14th Avenue South. Ms. Morris said yes, it's where the new subdivision was built a few years ago.
Stormwater is running off from the commercial properties there onto the residential area. Mr. Ott said
thank you for your report. Very nicely done. It's all about things that we do for building and for zoning,
your front door and it says 'planning.' So what are we planning? Ms. Morris said we are currently working
with the planning commission to get the overlay ordinance at least in line with the county's overlay
ordinance. Of course, that's going to be in conjunction with the new paving of Highway 17. The 3rd
Avenue promenade still needs revenue to complete that project. Mr. Ott asked if there was any rendition
for 3rd Avenue South. Ms. Morris said not yet. We are trying to get the money together. It's my
understanding the town administrator and the public works director met with Representative Fry and
Senator Goldfinch regarding funds. We already have recommendations for the next phase of the project
to present at the upcoming vision meeting. Mr. Courtney said thank you very much for your report. I
think it's very important that we start planning now. Business 17 is declining. When I came here in 2008
our businesses were doing great. I ask that you put 110-percent into this; get planning and zoning on
board, and try to get that overlay ordinance moving along. I don't want to wait to the road goes in; we
should've started on this sooner, because we definitely need the tax income. Ms. Morris agreed and said
our planning commission is definitely on top of it. They are taking it section by section, so when it's
presented to council it will be correct. Mr. Courtney asked when it might be presented to council. Ms.
Morris said they finished several sections of it at the last planning commission meeting. It will be
reviewed again at the August meeting. I predict that it will definitely come before Town Council within
the next few months. Mr. Johnson said from what I recall, we had an overlay district ordinance presented
to Town Council before and it was voted down by previous administrations. So, I would hope that this Town Council would take the initiative to institute what the planning and zoning commission recommends. Ms. Morris said that is correct; a more stringent version of what we have now was presented. Mayor Childs agreed with Mr. Johnson and said it started like a ‘barn fire’ and it was whittled down to a couple of little tweaks. I would hope that this council would adopt a strict overlay ordinance. It would certainly pay off down the road. Mr. Ott said that Harbor Freight is a really nice, big hardware store. There is also a coffee shop going in at 16th Avenue North. Ms. Morris said there is, and there is a delay with the SCHEC permitting. I want everyone to know that is not the building and planning department causing the delay. As soon as SCHEC signs off, it should be a smooth opening. Mr. Ott noted that Garden City just south of the town is prospering and the county’s overlay has a part in that. Mayor Childs asked when the restaurant on 10th Avenue North would open. Ms. Morris said they’re doing a lot of major renovations inside and should be open within the next few weeks. Mayor Childs said a resident called about the house at 3rd Avenue and Willow where the siding was blown off during Hurricane Matthew. Ms. Morris said two certified letters were sent, but the property owner will not accept them. We contacted their attorney and they won’t accept the letters either. We called the sheriff’s department in their area, and they will deliver a summons. Mr. Courtney said for the record: “The Town of Surfside Beach has got a very weak overlay, and we’re the weakest on the Grand Strand, I believe at this point. Am I correct?” Ms. Morris said you are. Mr. Courtney continued, “If you take a look at down Business 17, you’ll see the impact of it. It’s imperative that we get businesses in this town, If not, it’s gonna be on our backs, on our taxes. So I want to be clear about that. It’s very important. Thank you.”

v. Police. Chief Hofmann presented the written report, a copy of which is attached hereto. Ms. Samples said great report, and the speed study really surprised me. Especially that there are so many more cars traveling on 16th Avenue North than 5th Avenue North. Where and what direction were you taking the statistics. Chief Hofmann said I believe that the speed study on 16th Avenue North was checking eastbound and westbound traffic. The device was placed at Cedar Drive. The speed study on 5th Avenue North only captured eastbound traffic. The studies will be done again to check westbound traffic. Ms. Samples asked if a traffic light was being put at 16th Avenue North. Ms. Fellner said a half-light would be installed. Chief Hofmann said they could work with Mr. Adair to get some additional signage on 16th Avenue North. The residents are correct in their complaints of a lot of traffic. When they are parked, the moving cars probably seem to be travelling a little faster than they actually are. Mr. Courtney said thank you for your report. He asked if 17,000 vehicles on 16th Avenue North was correct. Chief Hofmann said that was the count. It could be off a little. One of the things to keep in mind is that device picks up golf carts and bicycles traveling at a certain speed. Mr. Courtney asked if this was through traffic. Chief Hofmann said it’s hard to say. It could be residents or visitors. I think that a lot of the traffic coming into the north end takes 16th Avenue North down to Ocean Boulevard. Mr. Courtney said they come down 16th Avenue and cut through Surfside Beach on Ocean Boulevard to go to Garden City. Chief Hofmann said I don’t know. Mr. Courtney said many residents from 16th Avenue North have complained this year, and I can see why. It’s very heavily traveled. Mr. Courtney asked if 16th Avenue North belongs to the town. Mr. Adair said it does; it was taken over as part of Ocean Boulevard. Mr. Courtney said I think we need to consider using traffic calming devices. Chief Hofmann said there are portables speed bumps and some other ideas that we can discuss. Mr. Courtney said that is a lot of wear and tear on our roadways. Personnel is doing a good job preventing accidents, which are down to 35 this month compared to 45 accidents last year. During previous months we were up in the 50s and 60s. So keep up the good work. Thank you. You had promoted a detective to supervisor, correct? Chief Hofmann said yes. Mr. Courtney asked if the detective position would be filled. Chief Hofmann said it will be filled as soon as possible. We are waiting for a resolution on the chief’s position. Mr. Courtney asked if a detective was still in the department. Chief Hofmann said, yes, Sergeant Sliker is coping with the workload. Mr. Courtney said I would hate to lose our detective division, because they do close a lot of cases. Thank you. Mr. Ott said I look forward to calling you ‘Chief.’ The data for 16th Avenue North might not look like much, but that’s almost 5,000 vehicles that were speeding on that road in eight days. That is a lot of speeding. So that’s what the people are seeing. They don’t see the other 20,000 vehicles that were going under that speed limit. I see the tickets went up speeding violations. Since there are more cars on the highway at this
time, the accidents went up a little bit. But, the accident rate is still a lot better than it’s ever been. Thank you for that, and thank you for the report. Mr. Johnson said the intersection at 10th Avenue North and Cedar Drive at Lake Elizabeth is a major safety concern. We may need to take a look at the landscaping in the right-of-way. Drivers going south around that corner are ‘flying.’ I have seen speed checks there, but eventually there will be a bad accident there. Maybe Chief Hofmann and Mr. Adair could meet to determine what could be done to improve lines of sight at that intersection. Chief Hofmann said they would take a look at that intersection. Mr. Ott said I’ve seen that same problem. It’s a high motor intersection. Mayor Childs asked Chief Hofmann to make sure officers pay particular close attention to golf carts being driven by kids. I talked to a man recently who was allowing his son to drive the golf cart, but he was controlling the pedals, because the son couldn’t reach them. That happens quite frequently, particularly this time of year.

vi. Public Works. Director Adair presented the written report, a copy of which is attached hereto. Mr. Ott said thank you for your report. Coastal Asphalt has done a really nice job. In my opinion, it looks like it’s better than what we did before. Mr. Adair said overall, I’m pretty pleased with Coastal Asphalt. Mr. Ott said a couple months ago you said all the sidewalks on Ocean Boulevard would be checked for cracks and broken areas. Has that been done? Mr. Adair said the north end was checked, because reports came from that area. There were a few isolated spots that needed to be repaired. That work will be done during the off-season. In the meanwhile. All of the sidewalks will be checked so necessary repairs can be made at the same time. Mr. Ott asked if there was any danger of people tripping. Mr. Adair said no, every off-season with the exception of last year when Hurricane Matthew hit, we replaced or repaired large sections of sidewalks. Mr. Ott said staff did a very nice job on the picnic tables and Passive Park gazebo. It looks a lot better, really nice. Maybe we can make more improvements next year. I’d like to see an amphitheater there someday. Mr. Adair said in the future he will bring some proposals for a restroom in the Passive Park. Ms. Samples said I had a lot of calls about paving; all positive. People have been really impressed with it. I want to tell you that the people who are doing the work have been very nice and accommodating to the residents. There were a lot of comments about that. So, I wanted to pass that along to you. Mr. Adair said we had a couple of complaints that were resolved quickly. Ms. Samples asked when the next paving project will start. Mr. Adair said that’s my next project going into the latter part of August after the season ends. A list of three to four miles of roads will be chosen. The county already has funding set apart from CTC (County Transportation Committee) funding. I want to get that work bid out as quickly as possible. Mayor Childs agreed with Ms. Samples’ comments, and said I’ve heard good comments about the paving. It’s super smooth and everybody is thrilled with the way it looks. Mr. Courtney said I do have concerns about the paving; I heard some complaints. He asked if residents were notified when paving projects start. Mr. Adair said flyers are distributed to all houses in the areas affected in May. Mr. Courtney asked if dates were given. Mr. Adair said the flyer stated that we expect to have it done mid-May. Mr. Courtney said I got second hand complaints, so I don’t know if they’re factual. I was told that people were not allowed to enter the road after they went for groceries. Is there any kind of marquee or bulletin board stating the roads will be paved? Mr. Adair said no. The contractor scrapes the edges of the road the day before paving starts. We never had a problem in the past. Mr. Courtney said there are rentals on the South end of town, and I asked that notification be sent out nearer to actual paving dates so residents and nonresidents could be informed. Several people told me they had to park on Poplar and walk down the street to their homes. Mr. Adair said he would explore different options. Mr. Ott asked where the backhoe trophy is. We came in third place in the backhoe rodeo. Mr. Adair the picture of Tom Nophsker is in report. Last month he and Mr. Willie Myers achieved first and second place in the PD Region American Public Works Association. Mr. Nophsker came in 3rd in the State Rodeo.

C. Administrator’s Report. Ms. Fellner presented the written report, a copy of which is attached hereto. Ms. Fellner said if Town Council has no objection, I would like to point Kenneth Hoffman as the new chief of police for the Town of Surfside Beach. (Applause, and standing ovation.) There were no objections. Ms. Fellner announced that the public was invited to attend his swearing-in ceremony on Thursday, July 27th at 4:00 p.m. in council chambers.
Chief Hofmann said Mr. Mayor, Town Council, and citizens, I am honored and very flattered that you would have me in this position. I’m just a Horry County boy, but I love this town, and I grew up here. I’m proud to do this, so thank you for trusting me. Thank you to Ms. Fellner, staff, and everybody else who have helped me last five months. I am very honored to have the opportunity to lead the police department under your guidance. I hope everybody can attend Thursday 4:00 p.m. for the swearing-in ceremony. Thank you to everybody, especially the citizens and the community. Many of them are here tonight who contacted me and offered their support. I really appreciate it. Thank you. (Applause)

Ms. Samples said thank you to Mayor Childs and Ms. Fellner for meeting with our representatives about funding. We appreciate you taking that time and effort. Ms. Fellner, we’ve discussed the lifeguard stations at the beach and that they are expected to move the chairs with the tides. Ms. Fellner said it was a lack of clarity, but now they are very clear what’s expected. Every lifeguard station will be moved with the tides. Our beach services officers will be watching this. Ms. Samples asked if the beach service contractor understands that now how he supposed to instruct his lifeguards on the rules. Ms. Fellner said he is crystal clear. Ms. Samples said I see that we have no items on business for tonight, which is disappointing to me, because I’d like to know where the tree ordinance is. What has happened to our tree ordinance? We’re going on nine months now, and we discussed it again. Ms. Fellner explained that we had one councilmember who could not meet on the dates which were supposed to be two weeks ago. A subcommittee meeting is scheduled tomorrow at 3:00 p.m., which will be the third meeting. Ms. Samples said that’s good to hear. Thank you. Mr. Pellegrino said I saw a lifeguard moving his chair when I was on the beach yesterday. You mentioned in your report that FEMA will present to Town Council in the near future. What does ‘in the near future’ mean? Ms. Fellner said I’m hoping August or the beginning of September. It just depends on the engineer. I can’t give you an exact date. Mr. Pellegrino said it sounds like it will be before October like we thought. Ms. Fellner said oh, yes. Mr. Pellegrino said keep pushing them, please. It was mentioned previously about the buildup of businesses in Garden City, but not here. One of the major impacts that is declining business license fees, which we have already discussed. What is status on that? Ms. Fellner explained that business licenses have already been issued for this year. We will bring an ordinance to establish declining rates to council, probably when there is not much going on; perhaps late fall. Mr. Pellegrino said if we adopt that, it would go into effect for the next business license cycle. Ms. Fellner said that is correct. I might say with regard to the overlay ordinance that County Council Chairman Lazarus mentioned that they’re going to change its overlay that they have on Business 17. So our planning and zoning commission has a lot of things to consider. I’m not even sure that the county’s planning and zoning know exactly what changes are proposed. Mr. Ott said regarding the lifeguard chairs there was actually nothing in the contract, but Ms. Fellner found that the ordinance stated that the police could designate where the chairs could be. That was the part that the town administrator used to have those chairs moved. When we renegotiate that lifeguard agreement, we will put it in there. Mr. Johnson said for the record, “Can you tell us who the focus group members were for nominating the police chief?” Ms. Fellner said Everett Goff, Beth Kohlmann, Dianne Trapp, Rodney Keziah, and me. Mr. Courtney provided overview for the process. I just wanted that law enforcement perspective. Mr. Johnson said sure, I just wanted to know. Ms. Samples said they did a great job. Please convey that to them. Thank you. Mr. Courtney Chief Hoffman mentioned that all police officers were trained in the use of Narcan. Which budget is that in? Chief Hofmann said Narcan is provided by SCDHEC at no cost to the town. Mr. Courtney asked how many officers would carry Narcan. Chief Hofmann said all on duty officers.

7. BUSINESS. Motions and/or Directions to the Town Administrator from executive session. Mr. Johnson moved to bring a deputy town administrator on staff beginning September 1, 2017. Ms. Samples second. Mayor Childs, Mayor Pro Tempore Ott, and Councilmembers Courtney, Johnson, Pellegrino, and Samples voted in favor. Councilmember Stevens voted against. MOTION CARRIED.
Mr. Johnson moved to direct the town administrator to implement a salary adjustment for the
town clerk as discussed during executive session. Ms. Samples second. Mayor Childs, Mayor Pro Tempore
Ott, and Councilmembers Courtney, Johnson, Pellegrino, and Samples voted in favor. Councilmember
Stevens voted against. MOTION CARRIED.

8. TOWN COUNCIL DISCUSSION.

A. Walk in Retail Businesses in R1, R2, and R3 Residential Districts, Councilmember Stevens. Mr. Stevens said this basically is just something that we need to look at. We had a resident
to mention it several times and council about businesses in residential districts. The way I look at it in R1
and R2 and R3 districts there should be no business where there is a continuous stream of customers
parking, a lot of parking, or parking going to go to a home-based business. However, a person should be
allowed to have a home-based business, as long as the business does not cause a problem in the
neighborhood, a large amount of traffic or foot traffic or parking. An example is a business where the
majority of business is from telephone calls, or is a business derived from other areas Horry County, such
as a contractor, realtor, professional, or service related business. My feeling is Town Council should revisit
the ordinance on home-based business; should look at businesses which have a lot of amount of retail
and foot parking traffic, and change the laws accordingly. This should apply to the town government,
which has in the past run commercial operations in residential districts despite ordinances against such
operations, and should apply to town government and individual businesses. That's basically what I
brought this out for citizen because she had a problem with a lot of people there. I know we can't
discriminate a person from say a lady teaching piano lessons or something like that, and I would also like
to hear our planning and zoning director, what she has to say on it. Mr. Ott said I was gonna agree with
Mr. Stevens. If you ever took any music lessons in your life that's where you do it. Most people can't
survive by renting a building and teaching guitar, piano, singing lessons or anything like that. But the
strict part that should be, there should be no stream of people coming in there. We should write the
ordinance to say there is a person and there is a period of time where there is nobody else there. It may
be a tutoring business where somebody tutors children in mathematics or English. That should be
allowed. I don't believe we should ever have somebody where there's four and five people getting in a
barbershop in somebody's home. That's not a home business. That should be in a retail or a business
district. Ms. Samples said our current ordinance basically says that if you're gonna have an in-home
business there can be no employees hired and they can't bring in any extra equipment for their business.
So if they are doing hair, it seems to me that the problems that we been having are parking issues more
so than the actual business. At least that's the impression that I'm getting unless in-home beauty parlors
are hiring or have a staff in violation of the ordinance. So maybe what we need to do is look at our
current ordinance and see how effective it is, because it's pretty clear what you can do and so, we
shouldn't have an issue. If it's complaint based, it comes to our planning, building and zoning, it's
certainly something they can check out or Chief Hofmann can have it checked out if there is a parking
issue, because again they can hire no employees. So, how many heads can they do at one time? So I get
it is a concern, and I agree that it's something that needs to be checked on. I'm just not so sure we need
to change the ordinance in order to do that. I think we need to understand what the ordinance says and
then go about enforcing it, which we cannot do unless we get a complaint about it. Mr. Stevens asked if
Ms. Morris could speak. Mayor Childs said no; this is council discussion.

B. Marketing for Town Website for Business Community, Councilmember Stevens. Mr.
Stevens this basically is marketing for the town website. We talked about marketing that Councilmember
Magliette was doing at the last meeting. After looking at everything, I went on the Internet and
researched. I think that anybody will agree, if you are not from this area and you're gonna look up
Surfside it's gonna go to Google, Bing, Yahoo or some search engine like that. You're not gonna go to
SurfsideBeach.org because you don't know it exists. So I went to the search engines and I looked at
restaurants, which gives us hospitality tax. I looked at accommodations which give us accommodations
tax. I looked at service. I looked at retail shopping. I found it failed to bring up the Town of Surfside
Beach to the forefront of any of those search pages. I also found that the visitSurfsideBeach.com that
was mentioned at the last council meeting by the administrator and Councilmember Samples hardly showed up in the search engines that the Myrtle Beach Chamber of Commerce said that they made for the town. All I know were spending around $12,000 for marketing, web design, with large impact and is basically the same information that was available on our apps just a couple years ago in 2015. I didn't see any changes whatsoever or anything while I was searching the town of Surfside. I didn't see any branding for Surfside, like Surfside is the family beach. It appears to me that the ball has been dropped. Whatever the town is doing is not in its best interest. We have a lot to push and we don't seem to be getting these things out. We have built one of lowest crime rates around; the absolute lowest drug use and drug sales in resort areas all around us and statewide. If you went to the heroin symposium you would've seen that. Our chief was the moderator. We're light blue, which is the least amount of drug problems. Myrtle Beach is bright red. This tells you right up the road they have a problem. For example, the police chief has dropped accidents by 50-percent. We as the town should be shouting to tourists and families our benefits across America. Come and visit Surfside Beach and have a safe and family oriented vacation. I don't feel what we're doing is working in the best interest of the town of Surfside. These were some of the searches I did (holding up papers.) After about three or four pages, I found autism friendly. That was only thing I found under restaurants. I went to accommodations. Luckily, we're on page one. This was Google. That was good for us. I went to retail shopping and out of all the pages that, we had we ended up like the last page, this was page 5, and it was like over a hundred listings, and we finally found visitSurfsideBeach.com, which is supposed to be the Chamber of Commerce. We should be on the first page, we're paying money, $157,000; $179,000 to the Chamber of Commerce last year. We should be up there. This is Bing. There is nothing there. Retail stores, it's the same thing. When I pushed up the Chamber of Commerce, it had nothing about Surfside. I had to go to the second page and we were listed under all the other Myrtle Beach, Atlantic Beach, Conway, Little River and Surfside is in there. When I punched up on the thing I didn't get anything about Surfside Beach other than Town of Surfside Beach. The problem with the Town of Surfside Beach is a lot of people don't look at that. They get to it and they said oh, this is a government site and I don't really know how to go into. Now maybe a millennial does, but the average person doesn't. That's the kind of stuff we're seeing and it just it just seems like to me that we're spending money, but we're not get the best bang for our buck. There was mention of 200,000 maps made by [Mr. Magliette] and being given to every place to stay in Surfside, and these people would get it when they checked in and they would have the list of all restaurants and all stores, grocery stores, whatever might be in town, and tell 'em where to go shop. So my way of looking at this is where do I get the best bang for my buck? Marketing? Well on the website I get the same thing I saw two years ago in 2015; we're paying $12,000 for the same application. I don't understand it. I like to hear some of the other councilmembers. I'm only one person. I'm just stating my opinion. I like to hear from the other councilmembers. Ms. Samples said just a correction. It was me who asked, if you read the minutes, I asked who updates the visitSurfsideBeach.com website. I didn't suggest that you go look at that site. I just asked who updated it. Secondly the 200,000 maps is what the Chamber produces for us; not what Mr. Magliette produced. Mr. Ott said yes, that's what we asked for at the last meeting. We asked for somebody from the Chamber of Commerce to come explained to us what they do for the town. We need to have that happen. Ms. Fellner said I contacted Brad Dean right after the meeting. He is trying to get a date and will get back to me shortly. Mr. Ott said you can go on your phone and choose food or lodging as you drive through the Town of Surfside Beach nothing comes up in Surfside Beach. I brought that up at the accommodations tax meeting two years ago. Mr. Courtney said I still believe that we have to add some businesses on Business 17 to market them. Going to the website I pulled up Surfside Beach: Golden Egg, Southside Grill, Bubba’s Fish Shak, Malibu, River City Café, Valentino’s II, and Crabby Mikes. So it's in there. I guess it's up to the individual to find the town businesses based on their search. Mr. Pellegrino said my businesses are in Myrtle Beach. So I do a lot of marketing through the Chamber of Commerce. What works for Myrtle Beach doesn't necessarily work for Surfside. You can pay as much money as you want to any search engine to get anywhere you want to be on it. It's a hard question. Obviously Crabby Mike's is a high revenue business. They can pay for more marketing than a small little tiny restaurant. If you've got more money, you can get more customers. Unfortunately, that's how it works.
C. Policing, Removing, & Revoking License of “Undesirable Business”, Councilmember

Mr. Stevens said first I want to commend Chief Hofmann, because if it hadn’t been for him, we wouldn’t know about this, and we wouldn’t’ve caught these people. The hardest two things I’ve had to do in my life is explain the actions of former President Bill Clinton to my daughter, and to explain to the godmother of the Baptist Church why there were three such businesses in this town. I told her you can’t catch ‘em unless you can catch ‘em in the act. Here’s the thing, we had three businesses come into town and according to the South Carolina license and labor laws you can be a massage therapist, but you have to have 500 hours of education. You have to be licensed; you have to pass a written exam, and you have to renew that license just like you would a real estate license or a builder’s license or whatever. Now in the Chief’s report, he said these people who came in our town had not been identified as having any license whatsoever. This is the family beach. We don’t need ‘em here, and according to state law, Chapter 7 Title V of South Carolina Code of Laws, to preserve health, peace, order and good government basically having a house of prostitution in our town is not in line with the standard this community and according to the law, council can make steps to preserve this. My question still is how they got past the business licensing. A couple years ago we tried to bring the business license and the planning and zoning together. Mr. Johnson, you remember that. Up in Columbia they talked about combining ‘em. Had they been correctly looked at these people would’ve never came in our town, and we would had these people removed. Our administrator said we had already been this with Up in Smoke where they were selling the synthetic marijuana and our attorney said we couldn’t legally discriminate. You can discriminate against criminals, believe me. We as a family beach and we know it as council people to make sure this never happens again. That this type of operation never comes back into our town. Well, I know we have a police department that will do everything, and I know they’re doing whatever is necessary, but I’m sure that there’s a lot of folks in here that have lived here for a long time who don’t want this type of thing. Basically, we can actually, council can set a later date, a special hearing, to revoke the business license of these three business, and we can make sure, we just have to advertise it, and we can contact him and email each councilmember on the proper procedure. I believe that Ms. Morris has something in relation to this, right? (**Ms. Morris responded from the audience.) Mr. Stevens continued saying so as long as we’re going to call ourselves the family beach, I want to keep these type of businesses out of our town. We don’t need ‘em. We don’t want ‘em. I sure don’t want to see them here, and I hope that this council will look, will get with the attorney, I hope the administrator would get with the attorney, and see if we can’t do something to pass it. We don’t have to restrict massage therapist that are legal people who are prescribed by a doctor. But we can certainly do something about criminal actions, and I hope the Council will join me to get this kind of stuff out of our town once and for all, for ever and ever and ever. Mr. Johnson said since my name was brought up, I would just say, obviously, I do not want massage parlors per se in the Town of Surfside Beach. I don’t want them anywhere. But, talking on that point, you can get a business license for anything. You can get a business license for landscaping. You can get a business license for a restaurant. You can get a business license for a bar or a massage, masseuse parlor, but unless you’re willing to invest the time and the finances into code enforcement and enforcement overall, you’re going to have elements like this. They’re going to fall in the cracks. It is not anything that the town did or did not do. You’re going to have these elements that are gonna bypass the system. It happens in every town and every city in the nation. So it’s not just bad eye for Surfside Beach, it’s a bad eye for every municipality in every county in the United States of America. Mr. Stevens said I will agree with what Mr. Johnson said. You can’t stop a man from running contracting business and selling drugs. But, in this situation these people were never checked for the state license and that’s the requirement of the business licensing department. They should of been checked by the business license department to see if they had; let’s face it, we’re talking about Asian people. Oriental. That’s what they were called. (**several speaking at once) Mr. Stevens said it’s a fact that some of them are in the slave trade. (**)

They could’ve requested license from every person. It’s is all they had to do. Ms. Samples said there were three businesses that had the infractions. Two of them are already gone, and Chief Hofmann already indicated that he had been visiting the third one on multiple occasions. Is that correct? Chief Hofmann said yes. Ms. Samples said thank you so much for doing such a fine job. Mr. Courtney said the town adopted an ordinance years ago that drug paraphernalia is illegal in the Town of Surfside Beach. Months later, Up in Smoke opened its business. My point is that you’re not to be able to stop businesses from
sliding in there that are illegal. You’re not to be stop all criminal activity. Our police department through
due diligence spotted [criminal activity.] My point is we can pass ordinances, but it’s upon the building
department and licensing and our police department to work on these things, and hopefully we won’t have problems like this down the road. Mr. Stevens said one final point. It behooves us to be proactive, not reactive to stop things before they become a problem. Without being proactive, if you will wait until something happens then we’re in the paper, in the media, and we wonder why. Mr. Ott said I agree with what everybody is saying. The problem is we need to know where everybody that works in the health industry has to have a state license, also. We need to make sure we watch for that. The other problem is the Constitution. It says you’re innocent until proven guilty. You have to commit the crime first. Sorry, but that’s just the way we have it.

Mr. Courtney said he will be bringing the recommendations from the parking committee at the next Town Council. He asked members to observe Surfside Drive in the meanwhile as it will be part of the discussion.

D. Reducing the Amount Staff Can Spend Without Town Council Approval,
Councilmember Stevens. Mr. Stevens said as you know we’ve had a lot of people speak at the podium about expenditures. Taxpayers are looking for transparency. I don’t how many times I’ve heard it here, and on the streets. We had about the Clemson expenditure, and then we had them come in here and they gave us something we couldn’t even use. Hopefully, that’ll get straightened out. A lot of people think the town has too much leeway in the spending of money going all the way up to $9,999.99 without proof. A lot of taxpayers have asked me to speak out for them and asked that to be reduced. I know I’m only one vote, but I agree with ‘em that we should reduce it anywhere from 20- to 50-percent. Now what the rest of this council wants to do that’s totally up to you. But I have the taxpayers telling me what, and I’m going to speak in their behalf. Thank you. Ms. Samples said I’d like to correct one thing that Mr. Stevens said, and that is the $9,900-plus was approved by council. It was brought to council. We approved it. There was no surprise; transparency, we put all of the checks written online [at www.surfsidebeach.org] You can go see what’s been written and to whom it’s written. If you have a question about why it was written to them, you can send the administrator an email and she is so quick to respond back and tell you what the item was. But, the $9,900 was approved by this council even though the administrator, by the way, didn’t have to bring it before council, because we have given her authority for those expenditures. Because it was so close to her limit, she brought it to council to make sure that we were good with it. We were good with that. Thank you. Mr. Ott said that $9,000 check was debated in executive session. It was never spoken on this dais, and that is where it is done. Mr. Stevens said I concur with Mr. Ott. That is exactly right. Mr. Johnson said it never did have to come out into public discussion, because it didn’t reach the threshold of $10,000. Let me just say, some council people and people in the public, since we are in discussion, alleged that at least two councilmembers on this dais received free football tickets because of that contract. Really? I wish you would’ve told me. I wouldn’t have spent so much money on my tickets. That is neither here nor there, but seriously I do not want to put a threshold of less than $10,000 for our town administrator, because it will take way too much time, too much for everyone involved, if we put that restriction on contracts. It’s ridiculous. We’ve discussed it for years and years. Mr. Pellegrino said I’ll just concur that Ms. Fellner brought the $9,999 to us and it was in executive session. The only reason she brought it to us was because it was so close to the $10,000. She thought it would ‘look weird,’ so she did inform council. Council knew about that. As far as a citizen talked in the earlier comments that lowering the $10,000 threshold won’t really solve the problem. I agree. If we have an issue we don’t trust our employees to spend $10,000, we’ve got a different issue to solve. However, I would not lower it, and I think it would cause inefficiencies to lower it. I trust our administrator and our directors to make decisions on $10,000. I cannot think of one example that came up; obviously, we had the financial issue with the embezzlement, but that was that was in a different matter. I’ve been on council for years, and I can’t think of one problem that we’ve had with that $10,000 limit. I trust the administrator and the directors with that limit. Mr. Ott said I really appreciate this being brought up. I was speaking with our administrator about this and I would not bring this out in public, but since it’s been brought out in public, I’m gonna say that I’m the one that brought it up in executive
session, because I saw the check on the check register. It was never brought to us as a courtesy. I’m also going to say this, I’ve checked with Clemson, and Clemson said to me that they will not allow their students or their departments to be hired to do work for any town. Added to that, I see no free tickets. What we could do with a $10,000 donation there is the possibility that you can buy special tickets from Clemson. I would like a formal investigation of why we took taxpayers’ money and donated it to the University of Clemson. Now you opened up the door, and I want to know why there was a $10,000 donation because there were two checks given to the University of Clemson. If I’m wrong, fine, but I want to know where the taxpayers funds went. They were given to an organization that tells me that they are a charitable organization, and we cannot give taxpayers funding to a charitable organization. Nobody said anybody was getting anything free. If I look at what was shown to me here for $10,000 on that screen and I’m totally embarrassed. I would be pleased if we had a total investigation done on that. Mayor Childs said I think that would take a consensus of council to do something like that. Mr. Ott, are you asking for consensus of council? Mr. Ott said I don’t even think we need to do that. That was an accusation, and I think you need to prove. I’m going to put an end to this $10,000 check. I want to know why that money was given to Clemson to tell me what plants to put on Ocean Boulevard for $10,000. And we got nothing from them. It’s years later and we’re still sitting here. Where’s our money? You opened this door. Ms. Samples said none of us were really pleased with the presentation by Clemson. But, Ms. Fellner has been front of it and she is talking to the professor at Clemson, and can get them back on track. I get that Mr. Ott does not remember, or feels like he was not told, about the $9000. I get that you have made that statement, but the rest of us on council were in executive session. We did know about it. We knew exactly what the professional services were gonna be and we approved it. I just want to make that clear. Mr. Stevens said I sat through that presentation. I saw a presentation that took away private property that literally would cost us so much money we couldn’t afford it. I wondered if the people ever walked down our streets, because I saw two presentations that made no sense at all, and every person sitting in this room here, every person that owns a house in Surfside, including my wife and I, pay taxes and we paid for that presentation. To me it looked more like a situation where the two students were doing their Master’s degree for Clemson University. That was not what was discussed originally, which was landscaping Ocean Boulevard to make it look nice. Instead we get a wild, very expensive look at what they wanted to do. Mr. Stevens detailed how the two plans offered took private property to create a central tourism hub. I didn’t like it, and think it is a waste of money. Mayor Childs said that was not what we asked for, and we all agree it’s not. We took them by the hand and told them exactly what we wanted. There was a clear understanding on the town’s part exactly what we wanted. We had no control over what came back other than having to go back over and redo it. To give money to somebody go by Chevrolet car but come back with a Cadillac; Clemson is going to redo the plan. I don’t know where the mix up was. It certainly was not on town’s side. The confusion was on Clemson’s side. The administrator has been in touch with Dr. Padua, and they are going to come in with a new plan. I have no reason or excuse why they didn’t do what we asked. Nobody knows, but that’s where we stand. Mr. Ott asked if there was an agreement or a contract. We put $10,000 of taxpayers’ money toward this. Just like when we go by that Chevy, we sign our names. Ms. Fellner said the only documentation is through email messages. Mr. Ott inferred that there should be something in writing to protect the taxpayer’s money. Mr. Johnson called point of order, saying this discussion was off topic. Mr. Ott argued that it is on track. Mr. Johnson said the discussion on the table is limiting the administrator’s spending limit. Mayor Childs said Mr. Johnson’s point is taken.

E. Proposed Mobile Food Vendor, Supervisor Ellis. Ms. Ellis presented the discussion paper and proposed ordinance, copies of which are on file. She asked Town Council for consensus to bring the ordinance for first reading at the next regular meeting. Ms. Samples said I am very excited about this; thank you for your time and effort to bring it to us. Town Council CONCURRED.

9. PUBLIC COMMENTS – General Comments. (5-minutes per speaker)

Ms. Carol Cook, 7th Avenue South: To answer Ms. Samples’ question, the home beauty shop
across the street from me has as many as four clients at a time. As far as complaints are concerned, my
neighbors and I have filed multiple complaints by calling the business licensing department as well as
with the planning and zoning department. Perhaps this is just like the tree ordinance. Until one of you
wakes up and finds a beauty shop next to you, no one is going to do anything about it. On July 14th, the
operator of the beauty shop at 312 7th Avenue South was notified that her business license had been
revoked, because she did not have a license to practice cosmetology in the State of South Carolina. As
the shop has been in business for over a year, the operator obviously has developed the ability to slip
under the radar and maneuver through the loopholes in our codes. To ensure that the operators cease
and desists, I'm requesting that both a police and code force presence on the 300 block of 7th Avenue
South. Random police patrols will help eliminate the many parking violations, which cause our safety
concerns by the issuance of tickets. The code enforcement official's notification of code violations to the
clients would help to eliminate business as usual, and give us back our neighborhood. Please prove to us
that our efforts to restore peace, quite, and safety to our neighborhood have not been in vain. And I
have to say, Mr. Stevens, thank you for putting it on the agenda. After the last meeting, I spoke to Mr.
Ott and Mrs. Samples who empathized with me; who said yes, this is a concern. We need to do
something about this, and when Mr. Stevens brought it up tonight, everyone was twiddling their thumbs.
I'm very disappointed in council. Again, when you wake up to find a beauty shop next you, I guess that's
when the matter will be resolved.

Mr. Tom Dodge, 8th Avenue South: I think Mr. Adair made a very good decision getting Coastal
Asphalt in here. In my opinion, they've done a much better job than Palmetto Paving. A couple of
meetings ago, council talked about doing something on Ocean Boulevard to protect our visitors. Nothing's
been done. [Mr.] Harry Kohlmann made a suggestion to put stop signs, and that apparently just didn't sit
with anybody. You can turn off Highway 17 onto Atlantic Boulevard and drive about seven miles. The
only stop sign or red light you have is Waccamaw Drive and Atlantic Boulevard. Other than that, you can
drive all the way back to Highway 17 seven-plus miles away. I thought Mr. Kohlmann had an excellent
idea of putting stop signs on the boulevard. You people haven't done anything about it. Maybe you
should listen to citizens. Last October after the storm the lift station at Dogwood Drive and 4th Avenue
North was discussed in council meeting for 20 or 30 minutes. Oh, we've gotta get something done. We
gotta get something done. Nothing's been done, folks. March the 9th the parking committee had a
meeting. That's five months ago, almost. Nothing's been done. It's never even been brought to council. It
just seems to this old cowboy that you people aren't doing the job, but it is better than going to the
circus.

Ms. Patricia Magliette, Harbor Lights Drive: Yeah, I love this little town. But, as taxpayers and
good people who've been supporting this town for years and years and years, we do have a voice in
things, and we do worry about things, and that is most of the time welcomed by the Town Council. But,
sometimes when we ask about some, it's like, well, what do we want to know about a check that is under
$10,000. Well, why don't you trust us, because we're your council and we're doing everything for you,
including watching the tax dollars fall out of our pockets? Well, yeah, you do a good job sometimes. But
what; we do have a matter of trust now and then that comes up. Over the past several years, we were
told that we have great, great, great audits of our books here in Surfside, and why do people worry?
Remember when, remember when someone said we want to SLED investigation and it was said no we
don't need that. Our books are fine. And it turns out we're missing $45,000 that, oops, nobody knew
about. Oops. So now you're wondering why we worry about $9,999. Well, maybe it was because we were
hurt when we found out in the newspapers that we were missing $45,000, and maybe we are little bit
worried. We're not saying we don't trust you. But, we're saying that sometimes we think someone could
do something stupid. Not meaning stupid in a cruel way, but just plain stupid, and we're trying to keep
our eyes on our tax dollars, and were trying to oversee what everyone's doing here, and that includes
council. So, yeah, we did ask about that $10,000, and we are concerned about what kind of checks
somebody could do without permission, because we been burnt by that $45,000. And in closing, I would
like to know at some point, because I know you can't answer questions now, are we ever gonna see that
$45,000 back that no one knew about that got lifted out from under us? It hurt me to find out in the
which says that there is a $75 check written to Clemson Foundation back in December 2016, and

Ms. Betty Lowery, 4th Avenue North: Boys and girls, you’ll find on your desk a fact sheet ‘How to
Guide for No Adverse Impact.’ Now, this is very similar to what you expect from your doctors. Do no
harm. Now as part of the planning and zoning commission, we worked on the tree ordinance, and we
worked on it for some time. It came to you guys and you took it and decided you're going to have a
subcommittee, and that kind of bothered me. It is like a ghost planning and zoning, only planning. The
landscape and tree ordinance is important. It's been promoted almost as if it is some sort of a date, a
debate between personal property rights and tree huggers. That doesn't have anything to do with it. If
you look at the fact sheet, this comes from FEMA; it comes from the Floodplain Management
Commission, and as you know, all of Surfside Beach is in a floodplain. Some of us are unfortunate
enough to be in the flood zone. But for this, if you'll look at the very first page, if we continue to
take responsibility for an investigation when council may be the problem in itself. Any citizen can
request that, and I will. I know that I have been referred to when the administrator mentioned about
the TV stations, because tonight's discussion about the $9,999 check; we heard the administrator say
that there was only a chain of emails. Now, I know I can't mention names, because I will be called on a
point of order by a certain councilwoman, but I can tell you that the councilman in the green shirt said
that there was no training. Now, that's what we should be doing. Now it's almost ironic that at one point it was asked how
long can planning and zoning have the tree ordinance before you can take away from us. And so we
rushed and we made sure we gave you a good product, and we gave it to you in a timely fashion. And as
Ms. Samples said, don't know where it went. Don't know what you're doing with it. The people who
wound up having it have had no training; are unfamiliar with the law, federal, state, local, and this is not
a criticism of those people. They are doing the best they can with what they've got. Rumor has it that
everybody in town hall has had a hand in it. That's not right. This affects a lot of people. If you look in
the last column on that top sheet; use the best available science. There’s been no training there. How
can those people do that? Be future oriented; almost everything in the regulation is so tied to right now,
me personally. It's not about your back yard or your corner or your street or your front yard. This is
about everybody. This is about what happens when people do things that affect other people's property.
I involve the public; coordinate with others. Some of them were some of the public meetings, some of 'em
weren't on the committee. Some of you were there, some of you weren't. Review all of the alternatives; I
de really don't think that's been done. Develop feasible recommendations; we haven't seen any. Aim high;
it's whatever you got right in front of you. This is not a live in the moment ordinance. What we're looking
at is going to carry us forward quite a way. Now, if you'll look at the second page. Take responsibility for
your regulations; use the best available data. Do they have that? Have a sound basis for the standards;
it's so confused right now I don't even know if they know what they've got. Coordinate with other
programs; not. Explain the rules and rationale; we haven't got that yet. Build a consensus for better
rules; take advantage of opportunities. It's just not there, and I'm not saying send it back to planning and
zoning. I'm just saying that what you have done is to create a ghost planning commission, and you've
included people who with the very best of intentions, and with the best heart are not actually qualified to
make this kind of a thing. (Time ended.) I'm concerned about it.

Ms. Sherry Wardle, 1st Avenue North: All I can say is I'm really glad that there are recordings by
the TV stations, because tonight's discussion about the $9,999 check; we heard the administrator say
that there was only a chain of emails. Now, I know I can't mention names, because I will be called on a
point of order by a certain councilwoman, but I can tell you that the councilman in the green shirt said
refer to a contract. So I imagine he saw it. And, that will be recorded. So I'm getting the feeling that
there are some councilmembers that are aware of this situation and are trying to cover it up. Council
doesn't need to vote on an investigation when council may be the problem in itself. Any citizen can
request that, and I will. I know that I have been referred to when the administrator mentioned about
getting the check copies on my own. But, I have also heard from other residents that it can take several
months to get those check copies. Now we already know that there is transparency in those registers,
which says that there is a $75 check written to Clemson Foundation back in December 2016, and
immediately following that there was a check for $9,999 to Clemson University Foundation, which by the
time I also contacted. I made several attempts to contact Doctor Mary Padua. She is on vacation right
now. When she returns, I will tell her exactly what I believe is going on here, and how she is being used
by this administration. Furthermore, when I contacted Clemson University Foundation, I spoke with a
young woman who told me that the foundation is a 501(c)(3) charitable organization. After several
questions that I had for her, she referred me to a gentleman, Peter Barry, I believe his name was. I don’t
have my notes with me, but he also answered those same questions that they do not contract out
student services and you all know that. I believe you all know that. So that leads me to the next issue
here. What is being covered up? Why did we have this check written just under the threshold for council
approval, when only a few select people remember it? There are some people that had no comment
whatsoever. And then there are some that are defending it. Also the other part of that is that with a
donation to Clemson University, you can get the option to purchase tickets, VIP tickets from what I
understand. So this is it. This is for everybody else that’s here. Any of these people that came to that
presentation, what were we all expecting? I heard people in the back saying, oh, this was supposed to be
about that $9,999 check. The whole town is talking about it. We have a right to know what went on, and
believe me, I am going to get answers for everybody in this town, because that is our tax payer money,
and all of you were charged with protecting it. All of you. And if any of you are aware of any wrongdoing
with this and you do nothing or say nothing, that’s called collusion and you are just as guilty, and I will
see to it that if there are any guilty parties here tonight that they are gonna be held accountable.

10. TOWN COUNCIL COMMENTS

Ms. Samples: Ms. Cook, thank you for getting and sharing with us that information. I do
empathize with you, and sympathize with you. But it goes to my point that I was trying to make, and that
is this, there are rules on the books. We have an ordinance, and clearly in your situation the ordinance is
not being followed, and it needs to be. And so, I’m going to ask the administrator to follow up to find out
what’s going on with that particular location. Chief Hofmann, welcome. We’re grateful that you wanted
the job in the first place, and we’re happy that the focus group made the recommendation, and that the
administrator supported it. Clearly, all of Council supported it. So thank you for your willingness to serve.
We appreciate it. Hope y’all have a great night.

Mr. Stevens: Thank you, Chief. I knew you were the best man for the job. I remember when you
gave me a ticket, a parking ticket. I patted you on the back, and I said you’re doing your job, and you
appreciated that. Now you’re the chief, and I’m really glad you are. Taxpayers’ money. That’s my job. My
job is to do my due diligence to watch your money, and make sure the ordinances are fair, make sure we
don’t have undesirable businesses in town. I don’t care who runs ‘em. That’s my job. That’s why you
elected me, and if you don’t think I’m doing my job, you can vote me out. But, that’s the way it works. I
remember Mr. Ralph Magliette. When he was elected, and I encouraged him to run, and he pushed and
did everything he could to promote the businesses of Surfside Beach. We even had a; [Mr. Magliette]
was in on it with me, and I think Ms. Mabry and a couple of other people, we had welcome center. You
could go up there and get calendars or a map with all the businesses. It’s gone. Why? Because somebody
said, oh, they went in there get monster coupon books. We’ve gotta push Surfside. This is the family
beach. We need to push that theme all over America. We are the family beach. Believe me, when I was
down at the Municipal Association [meeting], every time I talk to somebody from some other town, I said
come down to our place, we’re the safe beach. We’re just south about 15 miles [sic] south of Myrtle
Beach, and people said yes, that’s what I want to come. I like that family beach. We got a great place
here to live at. That’s why I moved here. When my daughter was growing up, I used to take her to the
Surfside Methodist preschool; to the library, it was on 10th Avenue, and to Fuller Park. My daughter said
done day, daddy, we’re gonna live here, and we did, and I’m glad I moved here. This is a great beach, a
great place. It is a family beach and we need to promote that through our marketing, through the
Internet. We’ve got something to sell. That man right over there (indicating Chief Hofmann) made us the
safest beach anywhere around. We have the best police force, the best fire department, we’ve got more
things to be proud of in this town than any other area around this; any other place. That’s a fact. Think
about that when you go home. Thank you for coming out and congratulations, Chief Hofmann. If you 
ever have to write me a ticket, I’ll take it. Have a nice night.

Mr. Pellegrino: Thank you for coming. Congratulations, Chief Hofmann. I’m glad you were 
chosen for the job. I think you’re the right person for the job. Thank you very much for the public 
comments. I know it probably frustrates you guys, because we listen public comments, and it takes us a 
long time to do anything. Unfortunately, but we do listen. I do take notes every time. I’m writing down all 
the comments, and I do try to follow-up, but it has to go through a process with all of us, and staff. It 
and just takes a long time. Ms. Cook, I do agree. I wouldn’t want a business next to my house and 
people driving in now and out. I will follow-up with Ms. Fellner, also, to make sure we look at our current 
ordinance, and see if that comes; that businesses is actually following that ordinance, and if not, we need 
to do some work on the ordinance. Thank you for the comments, because you guys bring up points that 
need to be addressed, and obviously, you’re living with those situations, and unfortunately we either 
don’t get to ’em or don’t get to ’em quick enough. We need to improve on that. Other than that, I agree 
with Mr. Stevens. Surfside Beach is just a great place to live. We have problems. We have things we need 
to improve on, but there’s a huge upside to Surfside Beach. The people here great. It’s an exciting 
environment with the tourist. We have the beach, parks, and great services; so it is a good place. Mr. 
Dodge, I enjoyed your comment that it is better than a circus. Adding on to that, it just wouldn’t be a 
meeting in Surfside Beach if someone up here wasn’t accused of being a criminal. (Laughter) That goes 
right along with it. Have a great night.

Mr. Ott: Thank you everybody who came out to the circus tonight. Actually, I am sick and tired 
of hearing about that $9,999 check. Not one week goes by when I don’t have somebody calling me 
asking what happened. Why is that? why was that check written. What’s going on with that? I’m 
supposed to say, oh, we gave them $10,000 said they could tell us what flowers and bushes we can put 
Ocean Boulevard. That’s what were supposed to say. I can’t say it. I’m not that stupid. So maybe 
somebody is. I never said anybody was a crook, but I’ll tell you what, somebody misused that money. I’ll 
tell you that much right now. I believe they did. That money should never been used to tell me what kind 
of bush to put down there, cause I could’ve went to True Blue Nursery and they would’ve done it for 
free, and then we could’ve taken and that $10,000 and bought the plants. We don’t even have a bush. 
We didn’t get one flower. We spent 10,000 bucks and $75. I don’t know what that was for. But, yes, I, I 
tried to investigate that and they told me I can’t, I can’t hire these people. But you can give them 
donations. I asked everybody to go on the Clemson website to look for yourself, and you’ll see what you 
can do with that donation. Thank you all for coming out, and I think this is all gonna go to bed now.

Mr. Courtney: I’d like to thank all of you for coming out. On Mrs. Cook’s, Mrs. Cook’s comment, 
I’d like to say that I’m not in favor of businesses in a residential area. I’ve been totally against businesses 
in residential in R1, R2, and R3. Some of my councilmembers disagree with me. But, again, this is 
something that needs to be debated in discussion. So, I’m letting you know how I feel, Ms. Cook, about 
that. I agree with you. I’ve had this problem in my neighborhood right around my house, as well. Going 
on to Mr. Dodge’s comments, the parking committee had made recommendations, you know you make a 
recommendation, it’s not that easy. It’s gotta be run through the administrator; it has to be run through 
public works; there’s other things that come up. Parking committee had made recommendations about 
putting in signs or taken away signs or handicaps or adding handicaps, again you have this scrape the 
handicap painting off the ground, which tears up the asphalt. So there’s a lot of decisions that go into 
this before I bring it up to council. As I said early under discussion, I will bring up all the parking 
committee’s recommendations whether or not they will pass, we will see up. It will be up to the council, 
but I will be bring them up. Ms. Lowery, with the tree ordinance and the subcommittee, the problem I 
have with the tree ordinance, I’ll gonna tell you straight out. I had a problem that the foundation was 
taken out of it. The permit process was taken out of it. That’s a permit; that it; that’s the problem I had 
with, and that’s why, and I am gonna tell you straight out, the truth, whether you like it or not, it’s gonna 
be the truth. I had some of the planning and zoning come up here and make some terrible comments to 
council. That’s why was sent to a subcommittee to look at it. Again the tree ordinance is important.
We’ve gotta be very careful what we do here. We have to be very careful what we do. There’s gotta be a permit process. You can't just have someone go up there and start cutting down trees, because that’s what's gonna happen and it might land on top of your house. The bottom line is gonna be I didn’t need a permit to take it down. We don't want that. So there’s a fine line there. So before the tree ordinance comes back, I hope that it comes back the right way. As far as the money goes, about letting the staff spending 10,000 versus 5,000, 2,000 you could change the number all day long. If someone wants to steal money, there gonna find a way. Just like it happened. As far as a person with the money that was missing, we were insured, if I was correct. I believe I’m correct. We were insured for that money. We will get that money back. You can put a mark on you can mark on it. You could make it 5K, you can make 10K, 20K. I mean you work in government, you've gotta have some flexibility. Nothing is cheap anymore, so there's gotta be a line as to what our directors can spend and how they spend it. Yes, there has to be oversight on it. Clemson. I think it's been said by the councilmembers how they feel about it. I don't like to bring up something unless I know the facts, the absolute facts. Until I get those facts in that’s when I’ll make my comments on it. I’m not a Clemson fan. I don't go to Clemson games. I’m a Jets fan. Sorry, New York. So we don't watch college football where I come from. Again, these things, I ran this all by you and this is how I feel. This the truth, and until I find the truth that's when I bring it to you. Alright. So I wish you all the best. Have a great evening, and please don’t forget about the show tomorrow night. We have the [hula show.] What time is it, Ms. Ellis. Ms. Ellis said 7:00 p.m. Mr. Courtney said we had a great turnout over the past weeks and it’s been a great show. I’m glad to see everybody going out. I look forward to seeing you. Thank you so much. Have a good night.

Mr. Johnson: Thank you all coming out. Everyone has pretty much mentioned a lot of things that I wanted to say. I would like to congratulate Chief Hofmann on his appointment. I’m going through my notes now. Someone mentioned that they could post notices on the telephone pole about paving. Well, that’s against the ordinance. [Laughter] Just saying. Also, thank you Ms. Lowery, for this floodplain information. Two or three weeks ago, there was a class held in Conway. Most of the planning and zoning commission was there. I attended. I don't know if any of the other councilmembers attended, but it was very worth my while. As a former member of the planning and zoning commission, I understand the importance of trees and how they relate to the issues of flooding, and so on and so forth. So, I thank you very much for supplying us with this. Gosh, let’s see. That’s pretty much all I have to say, except for the fact it’s not the ‘University of Clemson’ it’s ‘Clemson University’ and to be honest with you, I would like to address seriously that issue. We were all under the understanding that this was a landscaping issue. We all had, we were all, at least I was, under the understanding that they were going to give us a landscaping plan for not just Ocean Boulevard for other areas in the town. When I came to the presentation, I was honestly taken aback. I was like this is not what we signed up for or whatever. And we didn't have a contract. We had an agreement. So from what I understand, they are, we are in contact with Clemson, and they’re gonna come back and make the wrongs right, and as it should be. Nobody is trying to play games here, or put something under the rug or whatever. Everything is above board. There were some mistakes made on their end. We didn't make any mistakes as far as I know. So we'll see what happens. I appreciate all the town staff, and all councilmembers. Y'all need to get paid more, and staff needs to get paid more. But, that's neither here nor there. That's for another meeting. Thank you very much.

Mayor Childs said Ms. Lowery, I would like to thank you for your comments. I always find them very interesting and very factual. So keep, keep it up. You've done a great job. As far as the landscape, if anybody’s ever seen lush landscape, there’s a lot of difference between a landscape and planting flowers. Come on; give me a break. In this landscape, and they're also going to have to take in consideration water issues, stormwater issues. There's a lot of things other than planting flowers. We hope to see that... To tell you in depth what it's going to be, this is probably going to have to be done in phases. We're not going to be able to just go along and plant here, plant there. Whatever they do it's probably gonna be over the years; it's going take the town to invest in this landscaping. I’m hoping as we do the underground wiring, we take this in sections and do it along. So sooner or later we'll have something that really, really looks nice, and have something that's salt tolerant, wind tolerant, sun tolerant. That’s where
these landscapers come in. That’s exactly what we’re getting. There was a mix up; everybody agrees and
nobody is arguing that point all. It was a mix up, and it was not on the town side. Ms. Fellner did
everything possible to have this thing by bringing them here, showing what we want, and where they
went off track, you’d have to ask them. We have no clue. But we are going to resolve that issue,
hopefully, soon and get what we originally wanted. So everybody be patient. We will get it done. So I’d
like to thank everybody for coming tonight, and I need a motion to adjourn.

11. ADJOURNMENT. Mr. Johnson moved to adjourn the meeting at 9:11 p.m. Mr.
Courtney second. All voted in favor. MOTION CARRIED.

Prepared and submitted by Debra E. Herrmann, CMC, Town Clerk

Approved: August 8, 2017
