

Planning, Building & Zoning June 2011

The Building and Zoning Department issued a total of 122 permits in June. Six (6) permits issued for new homes and one (1) duplex. One hundred thirty nine (139) inspections were performed on various aspects of construction.

The Director attended the Special Inspector training in June which was held in Columbia. She received continued education credits for the class.

Code Enforcement has continued with complaints of signs in right of ways, abandoned vehicles and signs and banners being erected without permits.

The Zoning Board of Appeals held a meeting in June to hear two (2) variance requests. One (1) variance request had to do with wall signage and one (1) for a quadruplex which by code had lost its legal non-conforming status. The board granted the request for larger signage and denied the reestablishment of the non-conforming quadruplex.

The Planning Commission is in the final stages of completing the Land Development Regulation changes and staff will be distributing copies to council members in the near future for their review and comments. The Planning Commission will also be reviewing proposed changes to the wall sign section of the ordinance. Staff thinks the proposed changes will help promote businesses within the town.
