- 4:05 Enhancement Projects, Additional Solutions, Community Education and Involvement, Lake Associations, Ordinances and Open Discussion
- 4:50 Wrap Up, Next Steps, & Evaluations
- 5:00 Adjourn

Who: Town of Surfside Beach Municipal Staff, Town Council Members, Stormwater Committee members, other municipal officials and interested parties

What: A workshop designed to highlight the current stormwater issues in Surfside Beach and present solutions and strategies to improve water quality, and help promote Surfside Beach as a desirable place to live, vacation, and recreate.

Why: Surfside Beach is required, under federal mandate, to address stormwater pollution. There are currently some water quality concerns in the Town related to stormwater, yet the Town has many great opportunities to address these issues in such a manner that will not only improve water quality, but promote the Town as a leader in the Grand Strand for good stormwater practices.

When: 3 p.m.-5 p.m. February 24, 2009

Where: Town of Surfside Beach Town Hall, Council Chambers, 115 Highway 17 North, Surfside Beach, SC 29575
