

ADDENDUM I

Date of Addendum: October 5, 2020

Project Name – Surfside Beach Fishing Pier Special Inspections

- 1. I am taking a look at the RFP for the Surfside Beach Pier Special Inspections. I am reading it right that no special inspections or testing will be required for Bents 5-22. So we would really only be inspecting Bents 1-4, the shade structure, and the 3 buildings.**

*Special Inspections will be required for the following:*

- *All elements of the Podium, Buildings, Bents 1-4, Shade Structure*
- *All elements of Bents 5-22 except for the piles. The pile caps, superstructure, etc. at Bents 5-22 are included in this RFP – only the piles are excluded.*

- 2. The RFP states that the construction schedule is 18 months. Can you provide anything more detailed?**

*A detailed schedule has not yet been provided by the Contractor.*

*Note: All respondents must acknowledge receipt of this Addendum, including Addendum number and date of Addendum, in their proposal.*
