Administrator’s Report

By Ed Booth

Times are becoming financially difficult for many citizens. The Town Council and Administrator realize that many of our residents are on a fixed income or that their income has decreased significantly because of the economic downturn. To do our part, we have put together a budget that will not increase taxes and will keep all rates the same for Surfside Beach residents.

The budget being proposed is considerably less this year than last. Most of the employee positions are not affected and most projects, such as the new fire station, will move ahead as planned. In accordance with this we have delayed some purchases and totally eliminated a number of other expenditures. In essence, we are attempting to do more with less.

In order to keep the sanitation rates the same and to conserve fuel the town is instituting a system of garbage collection that puts all (Continued on page 5)

Our Future is Looking Greener

By Sharon Pinnell

I try to do my best with recycling because I do realize the effects it can have on our environment. All newspapers, magazines, cardboard, food boxes, jars and plastics in my home get recycled. What I was not aware of, however, was my actual Carbon Footprint on the environment until I took a few sample quizzes I found on the Internet. A Carbon Footprint is a measure of the impact our daily activities have on our environment and in particular, climate change. These activities include everything from the cars we drive, the trips we take, the food we eat and the products we purchase and use. Here is a website I found where you can take your own Carbon Footprint test: http://www.nature.org/initiatives/climatechange/calculator/. Protecting our environment for now and for future generations takes a conscious effort and it begins with awareness and knowledge.

There are a few simple things we can all do to conserve such as turning lights off once we leave a room and replacing all of our standard light bulbs with energy efficient ones. Please keep in mind that most of the energy efficient bulbs contain mercury and have special recycling instructions. We can add Energy Star appliances to our homes and wash our clothes in cold water and when we do put in a load of laundry we need to make sure that we have the largest loads possible. Washing a few items at a time can be a huge waste of water and (Continued on page 10)
From the Fire Inspector

October was Fire Prevention Month. During this month, the goal of the Fire Department is to teach people of all ages fire safety. It started right at the Family Festival, our big event for the fall. We displayed the largest piece of equipment, our Ladder 4 1987 KME 95 foot Aerial Kat, for the kids to sit in and show folks all of the tools of the trade it carries. We also had fire extinguisher demonstrations to teach people how to use them safely, as well as safety coloring contests. Prizes for the contests were donated by Surfside area businesses.

We also visit local schools and day care facilities in our area to bring the safety messages to children of all ages. Teaching the children what a smoke detector does and what to do when it goes off and ‘don’t hide, go outside’ on escape drills and meeting places. This year’s theme for Fire Prevention was “Prevent Home Fires”. 65% of all fires in the United States start in the home from unattended cooking, smoking in bed, to improper use of extension cords. With the Holidays coming, many things will be going on in your home. Simple things can be done to prevent problems before they occur.

⇒ Never leave any item cooking on the stove unattended especially around young children.
⇒ If you must use an extension cord, do so only for a brief period of time and not for permanent use. Please make sure they are the type with a 3 pronged plug as these are grounded and do not generate as much heat. The inexpensive models build up external heat quickly and are never intended for use under items such as rugs or furniture.
⇒ Never go to bed with a cigarette or other lit tobacco products as you can nod off without realizing they are still burning.
⇒ Cooking a turkey by frying – please keep the fryer away from overhanging roofs or close trees and always keep an extinguisher nearby. Keep in mind the oil that they cook in will be extremely hot so avoid splashing as best you can so no one gets hurt.
⇒ Christmas Trees - If you prefer a ‘real’ tree, please keep it watered, as you should to keep it from drying and becoming a fire hazard. These trees have been known to go up in seconds if allowed to dry out and when combined with faulty lights. Please make a thorough inspection of your tree lights both indoors and out, before installation. Real tree or not, light strands have caused problems all by themselves and need to be maintained.
⇒ As we will have just changed our clocks back, please make sure you have changed the battery in your smoke detector(s). These early warning devices work best with a fresh power source.

If you are part of the greatest generation and have difficulty reaching your detector(s) or maybe just can’t figure how to replace the battery, give us a call at the Fire Department, and we can come by and change those out with your batteries. We would much rather do a simple service call to take care of this for you, than to roll up on a scene and find that no one was alerted by the detectors and didn’t get up in time. Same again if you, for some reason, do not have detector(s) in your residence we can instruct you as to which type to purchase and can help with the installation of battery-powered models. If you have questions about

Planning, Building and Zoning

By Jackie Donevant

Once again, the Town of Surfside Beach has survived another hurricane season without having a major storm unlike our neighbors on the Gulf coast. When we believed that Hanna was going to strike we were able to put some of our plans into practice but we are very happy and grateful that it was just a practice and not an actual event.

The Town now has a Beautification Committee made up of dedicated volunteers. The committee will make recommendations to the Planning and Zoning Commission to help improve the look of our town. Our first goal is to improve the look of our Highway 17 Business District and median. Our members have come up with some good ideas for this project.

We welcome our new members on the Planning and Zoning Commission and on the Zoning Board of Appeals. We have a lot of work ahead of us and are looking forward to getting started. We also welcome Tom Britton from the Waccamaw Council of Governments. He is going to help staff and the Planning and Zoning Commission review our zoning ordinances and the Town’s Comprehensive Plan.

We have been having some problems with businesses placing signs in the Town’s right of way especially on Highway 17. If you have a question about signs and or banners please call the Planning, Building and Zoning Department for information on the zoning ordinances and where and when signs and banners are allowed.

We are trying to protect the trees in our town. If you see anyone cutting down or excessively trimming a tree, please give us a call at 913-6111 so that we can check to see if a permit has been issued.

We are in the process of reviewing and updating all our permit applications and forms. We hope this will make it less complicated to apply for a zoning or building permit.

"We welcome Tom Britton from the Waccamaw Council of Governments. He is going to help staff and the Planning and Zoning Commission review our zoning ordinances and the Town’s Comprehensive Plan."

Protect Your Pet

By Sharon Pinnell

The South Carolina Department of Environmental Control (DHEC) has reported on their website that in South Carolina domesticated cats, dogs and ferrets must be vaccinated. Most of these vaccines require a minimum age to vaccinate which is normally around 3 months. Upon vaccination, the pet should wear the serially numbered rabies tag, provided by the veterinarian, around its neck. This licensed veterinarian will also provide you with a certificate of vaccination.

Please keep in mind that rabies is a threat to all animals both domestic and wild as well as to humans and, per South Carolina law, the owner of an unvaccinated domestic pet may be found guilty of a misdemeanor and fined up to $500 or imprisoned up to 30 days. In 2007, there were over 150 confirmed cases of rabies found in animals in the State of South Carolina.

(Continued on page 7)
**Parks and Recreation Update**

By Debbie Ellis

Independence Day Celebration - The Town celebrated Independence Day at Martin Field. "Sea Cruz" provided the entertainment for the evening to a crowd of approximately 400 people. Patriotic favors were provided for the children as well as inflatables. Sparklers were distributed to the crowd and shown brightly at the end of the evening to "God Bless The USA". Town staff conducted a giant cookout of hamburgers and hot dogs.

Competition from local and surrounding areas vied for 1st, 2nd and 3rd place in the event with the opportunity to move up to a regional level.

Beach Sweep - In coordination with the S. C. Sea Grant Consortium, local groups of scouts, schools, civic clubs as well as DHEC members and town residents were among the 100 plus individuals that came out to clean our beach.

End of Summer Celebration - A beach volleyball tournament began the festivities during the day at 1st Avenue South. In anticipation of the large crowd, activities were moved to Martin Field, which included inflatables, free ice cream and a cookout. "The Catalinas" brought a close to a great summer in Surfside Beach.

Family Festival - Thousands filled Surfside Drive to make the 24th Annual Family Festival the most successful to date. Over 120 vendors provided a variety of food, information, and arts & crafts. Fuller Park, designated as a kid's zone, included free inflatables, balloon art, petting zoo, building workshop and popular cartoon characters. Two local bands, Sea-Cruz and TruSol, provided outstanding entertainment throughout the day.

Trick or Treat - Town Hall parking lot was transformed into a walk-through trick or treat area for the children on Halloween with abundance of candy, prizes and games.

Athletics - After a great baseball season, the Dixie Major League All Stars won their Sub-District and finished second in their District tournament in Conway. The Dixie Minor League All Stars won their Sub-District, District and traveled to Hartsville, S. C. where they competed and finished 5th in the state. Congratulations to these children who represented the Town of Surfside Beach with pride.

The Town wound down its summer season with Over 30 Adult Softball and welcomed fall with a successful youth football season and is looking forward to a great basketball season, which will be held at St. James Middle School beginning in January.

**Storm Water Committee Volunteer Needed**

We have one position open on our Storm Water Committee. If you are interested in serving, please contact the Town Clerk, Sharon Pinnell, at 843-913-6333.
Administrator's Report

(Continued from page 1)

carts on one side of the road. This will decrease the fuel consumption of the trucks by almost 35%. Currently, we have the lowest sanitation rates in the area and we will strive to keep them that way. Residents will be receiving a letter within the next 45 days designating, by street, on which side garbage carts should be placed. The town will, of course, continue to roll out carts for physically impaired residents. The collection of yard debris and bulk items will not be affected.

As most residents are aware, the Town of Surfside Beach recently purchased the Surfside Pier. The overall plan is to make this area an attractive focal point of the town which residents and tourists will find aesthetically appealing. To this end we have a number of changes planned, the first of which is to change the location of the aromatic dumpster at the pier/beach entrance. After the move has taken place, the area will undergo immediate enhancement under the direction of the Surfside Beach Beautification Committee. In addition, to help maximize the attractiveness of our pier we are planning a number of construction improvements at the beach access area and also on the pier itself. In an effort to promote community unity and still minimize costs, our Public Works and Grounds Departments will be working with HGTC students on landscape design and also with student interns from the construction class at St. James High School. In some cases, St. James' students will design a project to town specifications and then construct it in their classroom. In other situations student interns will actually work on site under the direction of our Public Works Director, Ty Taylor, or our Grounds Supervisor, Brian Newell.

Enormous amounts of planning and creative thought have gone into this year's budget. In this unstable economy it should be reassuring to Surfside Beach residents that our town will be able to move forward with planned projects without sacrificing the level of services to which our citizens have grown accustomed.

By Ed Booth

Business License Info

Under the Town of Surfside Beach Code of Ordinances every person engaged or intending to engage in any activity with the object of gain, benefit or advantage is required to pay an annual license fee and maintain a business license. According to the Ordinance any business or individual furnishing short or long-term rental space for a fee is considered a business and is therefore, required to obtain a license based upon the gross receipts from such rental.

A separate license is required for each location. The license period runs from June 1st through May 31st. Please contact the Business License Office at 843-913-6342 if you need additional information.

As always, if you have any questions or concerns, please do not hesitate to contact me.

(P) 843-913-6111
(E) ebooth@surfsidebeach.org

“We have put together a budget that will not increase taxes and will keep all rates the same for Surfside Beach residents ... without sacrificing the level of services to which our citizens have grown accustomed.”
Public Works: Holiday Schedule

Thanksgiving Week:
Monday, November 24 thru Wednesday, November 26, there will be a regular trash collection schedule.

Thursday, November 27, there will be NO recycling collection.

Friday, November 28, there will be NO bulk item pickup service.

New Years Week:
Monday, December 29 thru Wednesday, December 31, there will be a regular trash collection schedule.

Wednesday, December 24, there will be a regular trash collection schedule.

Thursday, December 25, there will be NO recycling collection.

Friday, December 26, there will be NO bulk item pickup service.

Thursday, January 1, 2009, there will be NO recycling collection.

The Town of Surfside Beach Public Work’s offices will be closed on the following days so that employees may enjoy the holidays with their families.

⇒ November 27 and 28 (Thanksgiving)
⇒ December 25 and 26 (Christmas)
⇒ January 1, 2009 (New Year’s Day)

Public Works: Streets, Lakes, Landscaping and Grounds

Paving: Palmetto Paving has completed the resurfacing of Ocean Boulevard. Designated parking areas will be identified with thermoplastic paint markings in the next few weeks.

Beach: Crews rake the beach and pick up trash at least one day each week. Swashes are maintained daily as needed to ensure proper water flow. Several repairs have been made to beach accesses and will continue as time allows.

Lakes: Cooper Sand & Gravel has completed dredging/excavating Cherry, Magnolia, Myrtle, and Holly lakes. The dredging crew will move to Floral Lake next. Effective January 2009, licensed town crews will be taking over the spraying of town lakes. Water quality testing will be conducted as needed.

Underground Utilities: The 14th Avenue South underground utilities crew is now putting the wire into the terminal boxes from Ocean Boulevard to Hollywood Drive. Once this installation is completed the changeover from overhead to underground utilities will begin.

Landscape/Grounds Maintenance: Crews have been busy pruning palm trees, weeding, and cleaning town properties and parking areas. Ditch cleaning and maintenance is ongoing.

Signage: Town signs and street signs have been repainted and/or will be replaced. Crews will be assisting with the Tree Lighting on December 4th and the Christmas Parade on December 13th.
Protect Your Pet

(Continued from page 3)

SCDHEC has reported on some of the symptoms of rabies in animals. Their report stated that most rabid animals appear to act differently than normal, such as wild animals acting friendly or tame and wild animals normally seen at night are seen during the day. Pets infected may seem to have a hard time walking, eating or drinking or may show abnormal signs of excitement or meanness. Most people are under the impression that rabid animals are fairly easy to spot because they would be drooling or foaming at the mouth. This may happen only some of the time and usually only in the latter stages of the disease.

Rabies is a viral disease which attacks nerve and brain tissue and is transmitted by a rabid animal biting a healthy one. It could also be spread if the saliva of an infected animal enters an opening on the skin such as a cut or scratch. The most common animals to be found carrying rabies are raccoons, bats and foxes. All it takes is for your pet to have one altercation with an infected animal. Vaccinating your dog and cat not only protects the pet, but also protects family members who come in contact with the pet.

For additional information, contact your local health department:

Public Works: Sanitation

By Ty Taylor

Since March 2008 crews have delivered approximately 2200 recycle carts to residential and commercial establishments throughout town. From April '07 to March '08 we collected an average 26 tons of recyclable materials per month. Currently we collect an average of 30.65 tons of recyclable materials per month. Recycle carts are delivered free of charge. If you would like a recycle cart please call (843) 913-6360 or email your name and property address to public-works@surfbiteaheach.org.

Crews are following our “winter schedule” for trash collection. That schedule is as follows:

Mondays - North End from 17th Avenue North to 3rd Avenue South west of Dogwood/Pinewood
Tuesdays - South End from 4th Avenue South to Melody Lane west of Dogwood/Lake Court
Wednesdays - All of Ocean Blvd., Lake Court, Pinewood, Dogwood, Yaupon, Seaside Drive and all cross streets in between.

Carts must be curbside by 6:00am and removed by 11:00pm. Carts may be put out the night before.

Residential yard debris is picked up throughout town on Wednesdays. Leaves and/or grass clippings must be bagged. Pampas grass must be tied or bagged.

Recycling carts are serviced on Thursday. Material can be co-mingled and must not be bagged.

Residential bulk items such as furniture or appliances are picked up throughout town on Fridays. Items must be curbside and reachable by our “claw/clamshell” truck.

Make sure your animals are vaccinated.

“The most common animals to be found carrying rabies are raccoons, bats and foxes. Vaccinating your dog and cat not only protects the pet, but also protects family members who come in contact with the pet.”

Crews are following our “winter schedule” for trash collection.
Identity Theft

Identity theft is one of the fastest growing crimes against consumers and it can affect anyone. Individuals become vulnerable because many do not understand the importance of keeping their personal information and documents safe and secure. Identity theft can have a severe impact on your financial future. It can lead to difficulties with loans for homes, cars, or credit cards. It is critical that we all take the necessary precautions to eliminate or reduce the possibility of falling prey to the victimization of this ever increasing crime. Don’t become a victim, take action now!! Here are some simple ways to help prevent identity theft.

Credit Reports: Get credit reports regularly (you are entitled to a free credit report each year from all three credit bureaus: Equifax, Experian, and Transunion). Keep an eye out for fraudulent accounts opened in your name. Even a misspelled name or wrong address could be signs of significant trouble.

Shredders: Shred all papers that have identifiable information using a cross-cut shredder before placing them in the trash. Many identity thieves get personal information, such as account numbers, from documents that have been carelessly discarded. Shred all papers that have identifiable information on them, such as bank statements, phone bills, medical statements, and especially pre-approved credit card offers.

Unauthorized Charges: Watch statements for unauthorized charges. If you notice any suspicious activity, report it to your financial institution right away.

Secure Information: Keep identity information, such as your SSN or credit or debit card numbers, private and in a secure location. Do not give such information out over the Internet or on the phone unless you trust the company and you have initiated the call.

Secure Web Sites: Whether shopping, banking, or paying bills, you need to make sure that the information you share online is secure and will not be shared with anyone else. Anytime you are about to share personal information, such as your SSN, credit card number, or bank account information, make sure the site is secure by looking for the “s” on the end of “http” in the URL line of your browser. If you do not see this, find someplace else to shop. When shopping online, use only web sites that offer a privacy policy so you know how your personal information will be handled. Print out privacy policies, warranties, price guarantees, and other important information.

Signature: Consider writing “See ID” on the back of credit and debit cards, so if they are ever stolen, thieves will not be able to use them as easily. Put your picture on your card if your financial institution offers this service.

List of Numbers: Keep a list of all credit / debit card numbers, as well as phone numbers to call, if you need to report a lost or stolen card.

Mail: Check and empty your postal mailbox every day. Often, pre-approved credit card offers contain personal information and have “special offer” codes that anyone can use to misrepresent themselves as you when calling the toll free number. Be sure to shred these offers to safely dispose of your information.

Homes: Always lock your doors. Do not leave doors propped open for easy access. Never leave your personal information in writ-

By Andy Christenson

(Continued on page 9)
Identity Theft

(Continued from page 8)

ing or on your voice mail. Be sure that all your windows are secure. Only share keys with those you trust the most and impress upon them the importance of securing those keys. If you lose your keys or they are stolen, have your locks changed immediately.

Computers: Always secure personal information on desk tops or laptop computers. The best way to secure information on your computer is with an “encrypted” password. Create passwords using a mix of numbers and letters, both upper and lower case. An example of this is “Foxtop77Den”. Secure laptop computers inside your home. Do not leave them in “plain view”.

Never leave them inside your vehicle unattended, even if you lock the doors. Make sure to use firewall and antivirus programs on your computer, especially if you are connected to the internet 24 hours a day. Never download or open files sent to you by people you do not know. Do not click on hyperlinks or provide personal information to strangers. Keep antivirus programs up to date weekly, and apply all recommended updates to your computer’s operating system at least once a month.

REPORTING IDENTITY THEFT:
If you believe you are a victim of identity fraud, you should take the following four steps to start restoring your good name.

Fraud Alert: Contact one or more of the consumer credit reporting agencies. The contacted company is required to contact the other two bureaus. When you contact the credit bureau, tell them you believe you are an identity theft victim and ask them to place a “fraud alert” on your file. This will prevent a thief from opening additional accounts using your personal information and doing more damage to your credit. Review your credit reports carefully to make sure there are no fraudulent accounts or balances.

⇒ Equifax—P.O. Box 740241 Atlanta, GA 30374 (1-800-525-6285 or www.equifax.com)
⇒ Experian—P.O. Box 9532 Allen, TX 75013 (1-888-397-3742 or www.experian.com)
⇒ TransUnion Corp—P.O. Box 6790 Fullerton, CA 92834 (1800-680-7289 or www.transunion.com)

Affected Accounts: Close the accounts that you know or believe to have been tampered with or opened fraudulently. Creditors can include credit card companies, utilities, banks, and other lenders. When you call each creditor, ask to speak to someone in the security or fraud department. Open new accounts using new personal identification numbers (PINS) and passwords that only you know.

Police Report: File a report with the Police Department within the jurisdiction the identity theft took place. Once you have filed a police report, get a copy for your records in case you bank, credit card issuer, or other creditors need proof of the crime. Documenting the crime and having a copy of the police report can help protect you legally when dealing with creditors, even if the police never apprehend the criminal.

FTC Complaint: Finally, you should file a complaint with the FTC, either by phone or by mail: Call the Identity theft Hotline (toll free), 1-877-IDTHEFT. Write the Identity Theft Clearinghouse, Federal Trade Commission, 600 Pennsylvania Avenue, NW, Washington, DC 20580.

By Andy Christenson

If you think you are a victim of identity theft, contact one or more of the consumer credit reporting agencies and ask them to place a “fraud alert” on your file.

“Documenting the crime and having a copy of the police report can help protect you legally when dealing with creditors, even if the police never apprehend the criminal.”

Make sure to use firewall and antivirus programs on your computer, especially if you are connected to the internet 24 hours a day. Never download or open files sent to you by people you do not know. Do not click on hyperlinks or provide personal information to strangers.
From the Fire Inspector

(Continued from page 2)

Fire Extinguishers, we will be happy to answer them for you as well. Safety is our #1 job and we are here to help you.

Along with Fire Safety, we keep training in our main role of firefighting. Twice this month, firefighters (both men and women) from our department, have gone to Murrells Inlet Fire Station #1 for live burn training. Firefighters practice fire extinguishing tactics, search and rescue techniques and ladder a structure for high level work. The last one, I was privileged to attend and run the Fire Truck in use for the operation, as well as getting to go through the ‘burn building’ on the 27th. This building is 4 converted cargo containers attached together with a maze of rooms and stairs that simulate your average family home. On the ground floor at the rear is a controlled burn pit where they set fire to pine straw and wood scraps that fill the entire structure with thick smoke that exacts the conditions we see while fighting fire. We have also done drills at our station Monday nights on fire ground opera-

Our Future is Looking Greener

(Continued from page 1)

energy. The item that uses the most water in older homes is the toilet. Replacing these with energy efficient models will save up to seven gallons of water per flush. There are also many new products on the market that can help us to create a healthier and greener home. Using soy or beeswax candles will burn cleaner and produce less soot in the air. To save a tree, many newspapers and magazines are now offered online. Try using household cleaners and laundry detergents that contain organic and natural ingredi-

By Greg Faulkenberry

tions that we practice what jobs need to be done when we first get on scene of vehicle accidents and fires. This kind of training allows us to keep our job skills well honed and to be ready for almost any scenario.

We look forward to seeing the population of Surfside Beach at the highly anticipated Christmas Parade on the 13th of December. Our Ladder Truck Driven by Lt. Tom Richards and the Chief’s Truck carrying the Firefighter of the Year will be participating as always. Give them a big wave as they go by.

By Sharon Pinnell

n’t told him yet. He will be happy in the long run though since there will be less garbage he will need to take out each week.

I have heard many people say “knowledge is the key” but I think the author Johann Wolfgang von Goethe said it best “Knowing is not enough; we must apply.” We can begin by applying these efforts at home and at work and eventually the beautiful town of Surfside Beach will be more than beautiful, it will be green.
